

FRONTROW™ TO GO...

The Sound Distribution System that goes with you.

For use in general or special education classrooms, conference rooms, senior centres or training facilities.

To Go has been designed so that virtually no installation is needed. To deliver the optimum flexibility, the system can be attached to a table stand or wall mounting brackets. Either option allows you to effortlessly take the system to another classroom or outside.

240V mains connected or built in battery power so it goes where you want, in an easy to use, all-in-one package. The all-in-one receiver and speaker can be mounted on the wall and be easily moved To Go where you want to teach.

Frontrow™ To Go is a unique active learning system combining performance, quality, functionality, stunning good looks and ease of use, allowing you to take the class outdoors for study or play.

Key Features

Unlike traditional portable sound reinforcement, this system's simple easy to set up and operate column speaker directs sound to effectively increase speech comprehension outdoors.

As well as your standard handheld FM radio microphone, it comes with an additional hands free microphone – making it the ideal choice for those with busy teaching hands or the dedicated PE / aerobics instructor.

BENEFITS OF THE FRONTROW™ TO GO:

- Reduced vocal fatigue for teachers.
- Increased clarity of speech improving student concentration, behaviour and performance.
- Provides good listening experiences outside the classroom maximising learning opportunities.
- Increases test scores and class participation.
- Improved attention and behaviour.
